

Basic R Applied to Plant Sciences

Overall instructions

Before the course, please download and install R on your laptop:

Windows: <https://cran.r-project.org/bin/windows/base/>

Mac: <https://cran.r-project.org/bin/macosx/>

Then, download and install R Studio.

<https://posit.co/download/rstudio-desktop/>

Create a folder on your desktop and download the course files into it.

<https://github.com/rfn-qtI/Basic-R-in-Plant-Science>

Next, open RStudio and run the script **packages.R** to install the ones used.

See you soon!
